About This Content

This DLC unlocks Platform Builder Pro, giving you everything that Platform Builder has to offer!

With Pro, you get everything in Platform Builder Standard plus...

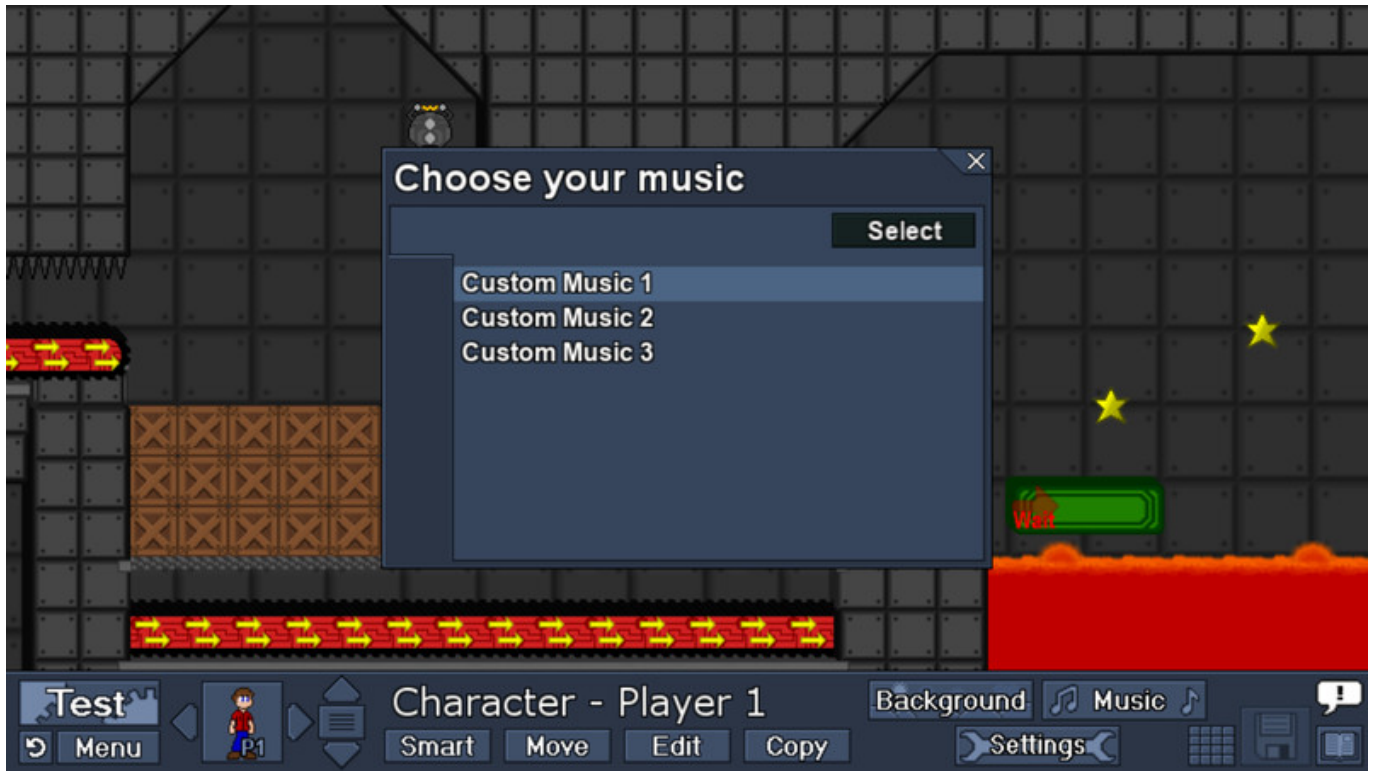

- > Unlimited characters, areas, overworlds, custom enemies, custom items, custom blocks and custom projectiles.
 - > NPCs (non-playable characters) which can interact with the playable characters.
 - > Custom physics for your characters
- > Controls for importing your own backgrounds, sprites, tiles, music, and sound effects.
- > That warm, fuzzy feeling inside knowing that you are supporting an indie developer!

The DLC itself does not include any more files to download, but simply unlocks all of the features for Platform Builder. No hassle. Thanks for checking this out!

With this game growing by the month and the amount of stuff you can add and customize with the Pro version of this game, I'd say it's worth it. Only get it if you are creative though, cause otherwise, it's a waste.

(also, make sure you have a decent amount of experience with modding and such, otherwise, you will miss out on a lot of the game)
