DICOM is both a communications protocol and a file format, which means it can store medical information, such as ultrasound and MRI images, along with a patient's information, all in one file.. The MicroDicom program I mentioned a few times already can export whatever DICOM file you have to BMP, GIF, JPG, PNG, TIF, or WMF.. If your file doesn't open as a DICOM image, open it with a free text editor Sample Dicom Files Professional Technology SupportTim Fisher has 30 years professional technology support experience.

DCO files are virtual, encrypted disks that are used with Safetica Free The same can be said for similar file extensions like DIC, though this one can be tricky.. zip and then uncompressing it with a free file extractor program, like PeaZip or 7-Zip.. DICOM files may also open with IrfanView, Adobe Photoshop, and GIMP You can try renaming the file so it ends in.. Files in this format are most likely saved with either a DCM or DCM30 (DICOM 3 0) file extension, but some may not have an extension at all.. With it, you can open the X-ray or another medical image directly from the disc, via a ZIP file, or even by having it search through your folders to find the DICOM files.

If youve received a file from your doctor thats supposed to have medical images on it, like from an X-ray, this tool will let you view it online in a breeze.. If youd rather use a web-based tool to open your DICOM files, the free Jack Imaging viewer is one option just drag your DCM file into the square on the screen to view it.. DCM or DCM30 files that you find on a disc or flash drive given to you after a medical procedure can be viewed with the included DICOM viewer software that youll also find on the disc or drive.. Some of the other programs from above that support the DICOM format might also be able to save or export the file to another format, an option thats likely in a File Save as or Export menu.. If you cant open your DICOM file using the programs or web services mentioned above, double-check the file extension of your file to make sure that it does in fact read.
